1. The following document has been considered for the purposes of this report:

D1: DE 199 61 666 A

2. The cited document does not disclose in combination an arrangement in a calender for guiding a web comprising all of the features of the characterising portion of claim 1 of the application.

Document D1 discloses only the features of the preamble portion of claim 1.

Thus, if document D1 is taken as a starting point the skilled person had to modify the device so that the support means of the doctor are supported by guide means that directly guides the web to be treated towards a nip of a calender. For this adaption the skilled person could find no example in D1 because in D1 a separate guide means (a roll) is used for the above mentioned purpose.

Claim 1, therefore, fulfils the requirements of Articles 33(1) - (4) PCT.

Dependent claims 2 - 18 are further preferred embodiments of the invention according to claim 1 and likewise fulfil the requirements of Article 33 PCT.

3. Contrary to the requirements of Rule 5.1(a)(ii) PCT, the relevant background art disclosed in the document D1 is not mentioned in the description, nor is this document identified therein.
